Interactiondesign+creative technology

SELECTED WORK / 2026

Arduino Bioplastic Window

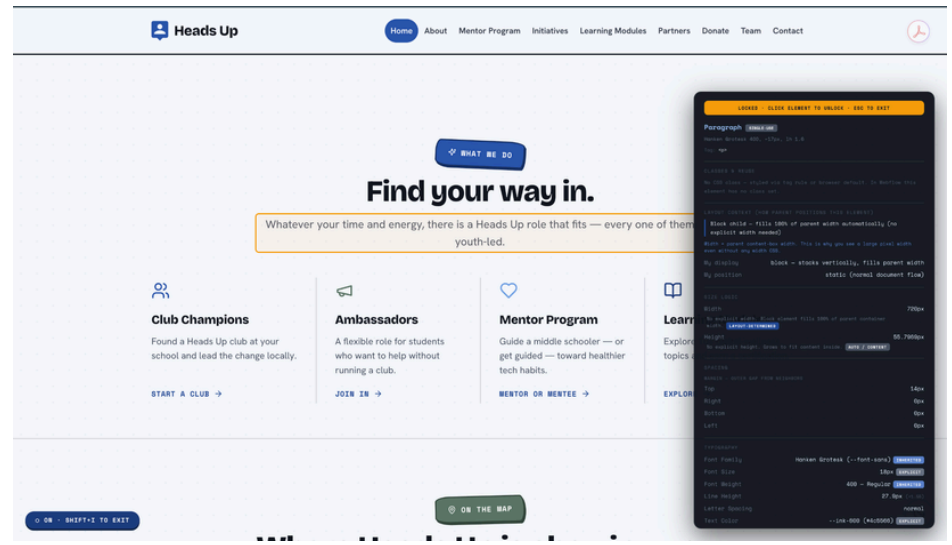

PHYSICAL COMPUTING

A fabricated window exploring artificial light through layered translucent materials. Two documented lighting states show how illumination changes the material surface.

Heads Up Club website

WEBDESIGN+DEVELOPMENT

Developed the selected website direction in Webflow.
Helper tool for website building.

Department information display

INFORMATION DESIGN + WEB DEVELOPMENT

Designed and developed the department information website.

Game interface + art direction

ART CO-LEAD + UI

Developed the visual style guide and refined team artwork.
