Julianne Jin

Interaction Designer & Creative Technologist | Tool Builder

jjin04@risd.edu · https://juli-ovo.github.io/portfolio/ · NYC

Seeking internship opportunities in interaction design, creative technology, and computational design.

EDUCATION

Rhode Island School of Design, Providence, RI 2024-2028
BFA - Art and Computation
Concentrating in Nature Culture Sustainability Studies

Brown University, Providence, RI 2024-2028
Classes taken
Mind and Perception
Object Oriented Programming in JAVA

EXPERIENCE

Heads Up, Online 2026
Tech Intern

- Led development of the team-selected website direction, translating user flows into a production-ready prototype with Lucidchart, Webflow, and AI-assisted tools.
- Collaborated with leadership, design, and engineering teams in weekly reviews, iterating on founder and stakeholder feedback to align UX, visual design, and implementation.
- Contributed to the ScreenWise mobile app using React Native, Expo, and Firebase, supporting feature planning and application architecture.

Rhode Island School of Design, Providence, RI
Teaching Assistant/Studio Assistant/Department Web Project

- Support students with HTML, CSS, JavaScript, Arduino, circuit soldering, creative coding, and fabrication tools through debugging, technical guidance, and UX feedback.
- Design and develop the department's information website, coordinating with faculty, studio staff, and IT on requirements, progress, and technical constraints.
- Support exhibitions and department communications by producing posters, digital displays, holographic fan visuals, and other presentation assets.

PROJECTS

RISD Astro ROVER Steering Team 2026

- Develop and evaluate rover steering concepts across wheel configuration, maneuverability, fabrication, and motor control.

RISD Astro SUITS VR/AR Team 2026

- Design AR interface concepts for astronaut EVA navigation, spatial orientation, sampling workflows, and mission information.
- Develop and iterate UI systems in Figma, focusing on information prioritization, low-distraction interaction, and clear spatial feedback.

Independent Game Development Project -- Art Co-Lead/UI 2025-2026

- Developed and maintained the game's visual style guide
- Communicated and refined team artwork to align with the established art direction
- Balanced creative quality with production efficiency across the art pipeline

SKILLS

Design

Interaction Design, UX/UI Design, Systems Design, Prototyping, User Flows, Information Architecture, Design Research

Developement + Creative Technology

HTML/CSS, JavaScript, p5.js, Creative Coding, Generative Systems, Physical Computing (Arduino), AI-Assisted Prototyping

Fabrication + Materials

3D Printing, Digital Fabrication, Bioplastics, Sewing, Bookbinding

Software / Tools

Figma, Adobe Creative Suite, Webflow, Unity, Processing, Xcode, Blender

Languages

English, Chinese, French

OTHER EXPERIENCE

NYC, NY/Providence, RI 2024-2026
Freelance Artist

- Produce 100+ commissioned illustrations and digital assets for private clients
- Manage client communication and iterative feedback cycles

Rhode Island School of Design Fleet Library, Providence, RI 2025-2026
Materials + Picture Collections Assistant

- Support visual research for art and design projects
- Manage material check-in/check-out workflows
- Organize and maintain the Picture Collection archive

AWARDS & EXHIBITION

RISD Student Work Viewbook Feature 2026

Group show art RISD - Reframing Representation 2025

Art and Computation Major Exhibition 2025-2026
